Who is soventix GmbH?

About SOVENTIX GmbH SOVENTIX is a leading global project developer in the solar industry. The core business is the development, turnkey realization and financing of high-yield solar parks and hybrid plants for institutional and companies. Furthermore SOVENTIX holds a portfolio of high-yield solar parks providing the company with stable cash flows.

When did soventix start?

After the foundation of Soventix in 2010, the first large-scale solar installations in Germany were quickly completed by us in close cooperation with project partners. The number of projects has grown rapidly: in just a few years, Soventix has become one of the leading companies in the industry.

What is soventix EA?

Soventix EA pursues the same energy revolution in the field of PV by developing, building, and financing, rooftop, ground-mounted, or carport solar photovoltaic plants in the Eastern African Market from commercial and industrial to agricultural as well as large-scale solar farms.

What happened to soventix's solar farm project?

Originally conceptualised by Soventix, the solar farm project was developed for an unsuccessful REIPPPP bid. The developer subsequently sold the rights to the project for Phase I of a cluster development (for 342MW) to SolarAfrica, which will now finalise the beginning of its wheeling project to multiple off-takers.
