Mins Timeslot EAT Lesson Title 30 9:00-9:30 INTRO 1 Introduction RE4Africa and Strathmore and course presentation

Dear Applicant, We are glad to launch a new edition of the RES4Africa Academy Technical and Vocational School training, powered by RES4Africa and Enel Foundation and implemented by Strathmore University, in collaboration with AVSI Foundation, St. Kizito VTI, and other local, regional and international partners. The training will take place in Nairobi, Kenya, between 27 ...

As part of the foundation's work, the Micro Grid Academy (MGA), launched in 2018, is a vocational capacity-building programme in Sub-Saharan Africa. The MGA aims to create a skilled workforce to deploy decentralised renewable energy solutions in the East Africa region and beyond, thereby improving energy access in rural communities while ...

The Ethiopian Women in Energy Association hosted the first learning field trip for the 21st Edition of the Micro-Grid Academy training. The new online session, which focused on solar mini-grids, was held between the 25th of January and the 3rd of February 2022. The training was delivered online via video lectures for six days.

The Micro-Grid Academy (MGA) held its official opening ceremony on Monday 22nd January 2018 at the KPLC Institute of Energy Studies & Research (IESR), Ruaraka, Nairobi. The event included a site visit gathering 40 international stakeholders to the future MGA venue and a certification ceremony of the first MGA's students.

to learn Microgrid. For the sake of clarity and to facilitate learning, it would be preferable to develop a fully functional AC and DC microgrid, complete with a variety of resources and a demonstration of the construction process. since it's free, and hence many students will be able to learn more quickly.

&lt;p&gt;In partnership with the RES4Africa Foundation and supported by the Enel Foundation, we are thrilled to bring you an unparalleled training opportunity focused on decentralized renewable energy systems. Dive ...

Formerly Micro-Grid Academy (MGA), it is a Technical and Vocational Capacity Building Programme born in 2018 in Nairobi with the aim to create a skilled and conscious African workforce to deploy decentralised renewable energy ...

The first Micro-Grid Academy (MGA) course started on 15th January 2018 in Nairobi has so far trained 40 local and international students. Beginning with a pilot trial, the MGA aims to fully ...

Bulgaria has one nuclear power plant, i.e., Kozloduy, which is located 200 km north of Sofia on the Danube River. It is the largest plant in the Balkan Peninsula. Kododuy has 6 units of Russian-designed UVER reactors. Units I, 2, 3 and 4 were commissioned in 1974, ...
