Where is Central African Republic launching a new solar park?

BANGUI, November 17, 2023 - Today, the Central African Republic is launching a new 25-megawatt solar park with battery storage in Danzi village, located around 18 kilometers from Bangui. The park will supply electricity to 250,000 persons in the capital, almost doubling the country's electricity generation capacity.

How did the World Bank help the government build a new solar park?

To fast track its construction, the World Bank directly supported the government in procuring resources and supplies. "It's a great joy," says Thomas Bissafi, the village chief of Danzi, a town in Central African Republic about 18 kilometers away from the capital of Bangui that is now home to a new solar park. "It's helping to develop the country.

Will a large solar plant in Bangui help other countries?

Residents in Bangui used to face up to 16 hours of load shedding with health facilities, schools, and shops with no electricity. Now they will have much greater access to power, driving productivity and job creation. The commissioning of such a large solar plant in CAR provides hope for other countries.

Where is Danzi solar plant located?

Danzi solar plant is located 18 kilometers from the capital city of Bangui, CAR. Plagued by decades of conflict, political instability and low growth, CAR has one of the world's highest rates of poverty - almost 7 out of 10 people are extremely poor. More than half are unable to afford enough food, and just 2.5% of CAR's road network is paved.
