How can BECO's new solar power plant help Somalia?

Because Somalia struggles with a lack of electricity and high electric costs,BECO's new solar power plant has the potential to positively impact many people's lives. When it opened,the power plant had the capacity to produce 8 MW.

Is there a solar power plant in Mogadishu?

In June 2020, Somalia's largest electricity provider, BECO, announced the opening of a new solar power plantin the capital city of Mogadishu. BECO is the only company that provides electricity for Mogadishu, Afgooye, Balad, Barawe, Kismayu, Marka, Jowhar and Elasha.

Can BECO's solar power plant lift Somalis out of poverty?

BECO's solar power plant could have a significant impact on Somalis, lifting many out of poverty. Lack of access to electricity is widely cited as a large contributor to poverty. Without electricity, families don't have a non-polluting source of energy for cooking. Refrigerators are unusable. Children can't do their homework after dark.

Does Somalia have access to electricity?

"Access to energy is a precondition to development, supporting livelihoods and powering essential services such as education and healthcare,' said UNDP Resident Representative in Somalia Jocelyn Mason. "However, 65% of people don't have access to electricity in Somalia.

How much power does BECO produce in Somalia?

Currently,BECO produces 35 MWof power for eight cities, which is much less than its demand of 200 MW. Many Somalis avoid using electricity in order to avoid the monthly costs as 69% of Somalis are currently living in poverty. Power companies in Somalia heavily rely on imported fossil fuels for diesel-powered generators.

The Multilateral Investment Guarantee Agency (MIGA) is issuing a \$5.67 million guarantee to cover the risks associated with Kube Energy's investments in Somalia. The company is involved in the construction of a 2.8 MW hybrid solar power plant in Baidoa.

Somalia. The Mogadishu solar photovoltaic power plant has a capacity of 8MWp, which the company plans to increase to 100MWp, with an investment of \$40 million. Pending the expansion of the solar power plant by ...

The government department is seeking bids for the design, supply, installation, testing and commissioning of hybrid/off-grid solar PV plants with battery energy storage systems (BESS) at the sites in the Banadir Regional Administration (BRA).
