

GMP has access to 100% of the stored capacity at all times, as defined in the contract signed when you apply. "Lessee, Customer"s control over the Energy Storage System is limited to its usage as a backup power source in the event of a power outage up to the point that the battery is completely depleted.

Existing BEVs only allow one-directional charging: the transfer of power from an external source to the vehicle battery. But the E-GMP comes with the hassle-free V2L (vehicle-to-load) function, which allows the passenger to charge external devices with the vehicle battery without an additional adapter. This function was made possible through ...

In April, after the third devastating storm in less than twelve months, GMP filed a request to lift the enrollment caps on its popular Powerwall and Bring Your Own Device (BYOD) home battery programs. Removing the cap allows more customers access to the program as Vermont sees increasingly severe weather due to climate change. The Commission agreed, ...

GMP fiber optic cable puller comes complete with an electric motor, battery, controller and a hand held trigger remoter control. Also the choice of a 32 or 42 in capstan. NO engine, NO emissions; Adjustable pulling force and speed; Electronically controlled pulling setpoints from 0-800+ lbs; 15,000 ft of cable pulling on a single battery charge*

The GMP approach, with a utility owning equipment on a customer"s premises, could gain favor in other service territories as the battery technology improves and costs fall. Roberts noted the opportunities such arrangements could offer for creating a two-way communication channel between the utility, the customer and the customer"s connected ...

GMP is pioneering the use of stored energy to cut carbon and costs for all customers by cutting the amount of grid power needed during peaks. Joining GMP's BYOD program adds your stored energy to that of hundreds of other battery and EV charger owners - and GMP's growing network of stored energy helps offset what's needed to meet power demand during those critical times.

Thursday 3 December, 2020 - Hyundai Motor Group has unveiled its new Electric-Global Modular Platform (E-GMP), a dedicated Battery Electric Vehicle (BEV) platform. Revealed online during ...
