

How is Romania supporting rooftop solar?

Romania supports rooftop solar installations through the Casa Verde Fotovoltaice (green PV home) scheme, which is part of the national net metering regime. According to the latest statistics from the International Renewable Energy Agency, Romania had 1.39 GW of solar installed by the end of 2020. Romania is also promoting rooftop PV deployment.

Who built a solar park in Moldova?

The project was commissioned by the Italian companies Fly Ren Energy Group and Consulcesi Tech and built by Iqony Sens (formerly known as GILDEMEISTER energy solutions). Chiril Gaburici, the Minister of Economy and Infrastructure is very enthusiastic about the project: "This solar park is an important milestone for Moldova's energy sector."

Are solar thermal installations economically feasible in Moldova?

Given Moldova's geographical position and falling technology costs, solar thermal installations are becoming much more economically feasible, especially for public institutions with high water heating needs such as kindergartens and hospitals.

Is Moldova's biggest solar park connected to the grid?

Moldova's biggest solar park is connected to the grid now. An outstanding project - not only for Iqony Sens but also for Moldova. Covering an area of 2.5 hectares the 1 MWp solar park is strengthening Moldova's energy security.

How many solar power plants are there in Moldova?

According to the Ministry of Moldova in the whole country there are currently 52 PV-power plants of different sizes with a total capacity of 2.93 MW, which means this new solar park in Bacioi village makes a significant contribution to the increasing green energy supply.

Why should Moldova invest in a solar park?

Chiril Gaburici, the Minister of Economy and Infrastructure is very enthusiastic about the project: "This solar park is an important milestone for Moldova's energy sector. It reduces our dependency on imported energy. Furthermore, the production of green energy is a clear commitment to the environment."

According to the Ministry of Moldova in the whole country there are currently 52 PV-power plants of different sizes with a total capacity of 2.93 MW, which means this new solar park in Bacioi village makes a significant contribution to the increasing green energy supply.

1 ???; Moldova has joined the International Solar Alliance, the Ministry of External Affairs spokesperson, Randhir Jaiswal said on Monday. Mon, Dec 16, 2024 | Updated 07:01 IST Toggle navigation
