

Monaco nitor energy

What is energy in Monaco?

Energy in Monaco describes energy production, consumption and importation in the Principality of Monaco. Monaco has no domestic sources of fossil fuels and relies entirely on imports of electricity, gas and fuels from France.

Who owns the electricity in Monaco?

Monaco's sole national power company is Soci  t   Monagasque de l'Electricit   et du Gaz (SMEG, Monegasque Electricity and Gas Company), which operates the country's electric and gas grid and provides related services. SMEG is 60% owned by Engie, 20% by the State of Monaco, 15% by EDF, and the rest by private investors.

Does Monaco use fossil fuels?

Monaco has no domestic sources of fossil fuels and relies entirely on imports of electricity, gas and fuels from France. Monaco's sole national power company is Soci  t   Monagasque de l'Electricit   et du Gaz (SMEG, Monegasque Electricity and Gas Company), which operates the country's electric and gas grid and provides related services.

How much electricity does Monaco use?

In 2018, the country used around 536,000 MWh of electricity, of which a majority of it was used tertiary services. The first and later sole electric plant was a gas-fired power plant built by the casino operator SBM at base of Fort Antoine in Monaco-Ville.

About Nitor. Nitor is a fast-growing energy trading company, that has swiftly transitioned from start-up to scale-up within just a few years. We're experiencing rapid growth, offering limitless opportunities for learning and development. We're proud of who we are and excited about what we're building for the future together.

With our holistic view of energy prices across time and location, Nitor was able to dampen price fluctuations and move gas to where it was most needed. Trading 24/7, Nitor provided liquidity continuously throughout the year, and as physical traders, Nitor took the delivery risk from suppliers in the West and moved gas across the continent
