Does Myanmar have solar power potential?

Myanmar has significant solar power potential, with an estimated 51.973 TWh per year according to The International Growth Centre (Energy in Myanmar, 2016). The Asian Development Bank assesses the opportunity for solar in Myanmar to be up to 27 GWp. The average yearly total of PV power production varies between 1,150 kWh/kWp and 1,600 kWh/kWp, with high values in the central region.

Are solar cells used in Myanmar?

Myanmar, being a country with abundant sunshine, has the potential for solar energy. However, the high cost of solar energy limits its availability for some. Researchers have been conducting research on solar cells in Myanmar to address this issue.

Who is Myanmar Solar power trading?

Myanmar Solar Power Trading Co., Ltd is established in 2011 and we are one of the leading full-service providers for C & I projects, residential, industrial and large scale solar projects in Myanmar. From a single point of contact, we provide solar PV designs, calculations, consultations, installations and repair and maintenance services as well.

Can solar power help a disadvantaged population in Myanmar?

"Moreover, solar can help ensure a just energy transition for citizens affected by energy poverty... Furthermore, 75-85% of Myanmar's population lives within a 25-50-kilometer radius of high voltage power lines, which makes for ideal locations to develop medium- and large-scale solar projects," they noted.

Is solar energy gaining traction in Myanmar?

Solar energy is just beginning to gain some traction in Myanmar, a country that has been gradually opening up its economy and society to the world since 2011.

How much electricity does Myanmar produce?

Myanmar is able to produce between 2.9 gigawatts (GW) and 3.1 GW of electricity, according to media sources. Recent estimates by the World Bank forecast energy consumption in Myanmar would grow at an average 11% rate out to 2030. The World Bank also forecast that peak electricity demand would rise to 8.6 GW by 2025 and 12.6 GW by 2030.

Asia Solar Co., Ltd is "The Best Solar Energy and Lighting Solution Provider" for you. Aiming to be the best in the league, we offer fair value product and will concentrate on customer relationship and also ensuring their satisfaction will always be our first priority.

Yangon, Myanmar, situated at latitude 16.840939 and longitude 96.173526, is a favorable location for solar
