Can Namibia's solar PV capacity be expanded?

HopSol spoke with ECP about how Namibia's solar PV capacity can be expanded and further integrated with the national grid.

Does Namibia have a solar market?

Namibia's solar market is booming with the country attracting fresh investments and new players. With a focus on both grid-connected and off-grid projects, the country aims to connect 80% of its population to renewables by 2025.

Where does Namibia's power come from?

Currently, an estimated 60% of Namibia's power is imported from regional countries via the Southern African Power Pool, and while hydropower accounts for a large share of the energy mix, biomass and diesel-fired power generation are still heavily relied upon.

Given Namibia's immense solar potential, how can solar PV be better integrated with national and regional transmission grids? There is a need for industry participants from different sectors - that is the energy sector, government institutions and ...
