

National subsidies for installing photovoltaic panels

Are UK government grants available to reduce solar panel costs?

A detailed look at UK government grants available to reduce solar panel costs. Solar panels are becoming an increasingly common option for UK households, giving people the option to produce their own green energy. One issue that many people face, however, is the price of solar panels and organising installation.

Are there government grants for solar panels?

There are currently three government grants available to help with the upfront costs of solar panel installation: ECO4: Funding for energy-efficient retrofits to fuel-poor households, or ones with occupants on certain benefits. Each grant has different eligibility criteria, as well as the benefits they provide.

Are there government grants for solar panel users in Europe?

There are a number of government grants for solar panel users across Europe, which proves the growing importance of solar energy and how governments are trying to encourage people to make the most of solar energy.

Should you apply for a solar panel grant?

By applying for a solar panel grant, you could receive heavily discounted or even free solar panels, resulting in annual energy bill savings upwards of £1,040. We recently conducted a survey of over 1,540 Independent readers who own solar panels* to understand how they made the most of the solar panel funding available to them.

What if I don't qualify for a solar panel grant?

If you don't qualify for any solar panel grants, there's another way to start benefiting from solar electricity with no upfront cost. Sunsaver Plus, the UK's first solar subscription, will provide you with best-in-class kit, all in one easy solar & battery package that comes with a 20-year Sunsaver Guarantee.

How do I qualify for free solar panels in the UK?

You may qualify for free solar panels if you're eligible for one of the UK's four main grants. However, two of these grants are only available in England, one can only be accessed in Wales, and all of them come with stringent qualifying criteria that target the most deprived households.
