What are solar panel mounting brackets?

Solar Panel Mounting Brackets by Fastensol are the backbone of sturdy and reliable solar installations. These brackets provide a secure and adaptable framework for attaching solar panels to various surfaces, be it rooftops or ground structures.

Why should I Choose fastensol solar panel mounting brackets?

Perfectly accompanying our solar panel fixings & solar panel mounting rails. Choosing a selection results in a full page refresh. Solar Panel Mounting Brackets by Fastensol are the backbone of sturdy and reliable solar installations.

What are solar panels brackets & how do they work?

These brackets provide a secure and adaptable framework for attaching solar panels to various surfaces, be it rooftops or ground structures. With their durable construction and easy installation, they ensure optimal panel positioning, maximising energy production for sustainable power solutions.

What accessories do I need for a bespoke solar panel system?

Our range of solar accessories covers everything you need to create a bespoke solar panel system. Everything you require from replacement 12V low energy bulbs and holders to solar power inverters, charge controllers, UV stabilised cable and solar panel mounting brackets.

What fixing brackets are used for solar panels?

Below you will find that we have listed the common fixing brackets used in domestic and commercial installations. Slate, plain tile, pan tiled and Vario, rafter purling roofed, trapezoidal, speed fit, flat roof, ground mounted, plus all of the t bolts, nuts mid or end clamp fixings to match any solar panel mounting project.

What are solar panel brackets made of?

Marine-Grade Materials Ready for the elements Our solar panel brackets are made of a T66 graded alloy, which we use for its incredible reliability, versatility and high strength-to-weight ratio. T66 is used in shipbuilding and offshore industry, so you will never have to worry about weather or the elements.
