

New Zealand grid solar company

Who is NZ solar?

NZ Solar was born of a combined desire to take an environmentally friendly approach to generating power and an appreciation of the growing costs of electricity. We want to help you use sustainable solar power to power your home or business, heat your hot water, charge your electric bikes or EV. Reduce your costs.

How can solar power help New Zealand?

We're working with the sector on New Zealand's renewable energy and low-emissions transition. We're responsible for the governance and regulation of New Zealand's electricity industry. Solar power can help you become more self-sufficient, reduce your carbon footprint and reduce your energy costs.

What is a grid connected solar system?

An example of a 10kWp grid connected solar system in Christchurch. We design and install grid connected PV solar power systems for New Zealand homes, schools and businesses. What does 'grid connected' mean? A solar energy system that is 'grid connected' is connected to New Zealand's national electricity network, commonly known as the 'grid'.

Is going solar a good idea in New Zealand?

Going solar helps the environment - it creates clean, green energy and is a great way to reduce your carbon footprint. Going solar demonstrates your commitment to sustainability and will help New Zealand achieve its target of net zero greenhouse gas emissions by 2050. Is your property suitable for solar?

Does a grid connected Solar System add value to your home?

A grid connected solar system will either reduce or eliminate your power expenses, reduce your carbon footprint and add value to your home. Research in Australia estimates that every 1kWp of solar added to your home will increase the value by approximately \$6,500NZD.

Taspac Energy is NZ's premium supplier of Solar PV and Energy Storage Solutions. 100% Kiwi owned, Taspac was founded in 2014 with a very simple goal - to provide best-in-class renewable energy solutions to New Zealand solar installers and electricians, backed up with a high level of local sales, technical and warranty support.

Whether you want to slash your business power costs, maximise the return on your commercial property or live independent of the power company with power supply security through battery storage, SolarKing are here to help. Talk to our NZ solar specialists on 0508 765 276 or ...

Discover ZEN Energy's custom solar systems for NZ homes and businesses. Explore grid-tied, hybrid battery, and off-grid solutions designed for savings, sustainability, and resilience.

Infinite Energy is a family owned company established in 2013 to specialise in the design and installation of Solar PV, renewable energy solutions. We specialise in solar power technologies for home and business, which encompass grid connected systems, grid tied hybrid with battery back up, through to entirely off-grid (stand alone) systems.

Innovation and new technologies have led to new ways to generate, store and sell electricity back to the grid. Solar panels, small wind turbines and batteries are becoming increasingly available and affordable. Any household or business can generate power for their own use and sell the excess back into the grid.
