

New Zealand modular solar system

Can you install off grid solar in New Zealand?

In New Zealand you can install your own off grid solar up until the point of 240V AC wiring- such as wiring into a household switchboard - which by law can only be done by an electrician. We make installation easy with off grid solar kits in various sizes to fit your lifestyle. Not sure which off grid solar power system is best for your lifestyle?

How many prefab and modular home companies are there in New Zealand?

17Prefab and Modular Home Companies in New Zealand - prefabricated. The modular home manufacturing scene in New Zealand is witnessing a surge in environmentally conscious and budget-friendly options. Among these, GridFree has made a name by offering sustainable modular homes that blend harmoniously with the natural surroundings.

How can solar power help New Zealand?

We're working with the sector on New Zealand's renewable energy and low-emissions transition. We're responsible for the governance and regulation of New Zealand's electricity industry. Solar power can help you become more self-sufficient, reduce your carbon footprint and reduce your energy costs.

Is going solar a good idea in New Zealand?

Going solar helps the environment - it creates clean, green energy and is a great way to reduce your carbon footprint. Going solar demonstrates your commitment to sustainability and will help New Zealand achieve its target of net zero greenhouse gas emissions by 2050. Is your property suitable for solar?

What are GridFree's off grid solar system kits?

GridFree's off grid solar system kits are complete packages with EVERYTHING you need to install off grid solar in NZ + education and ongoing support from us!

Who are Zen solar panels & solar power systems?

ZEN solar panels and solar power systems. The latest in environmentally-conscious solar technology. Delivered by a world-class, NZ-owned team.

New Zealand designed Standalone Modular Off Grid B.E.S.S which can deliver 6kW of continuous AC power, Fully expandable PV input from 2.28 - 6kW and fully expandable battery bank from 6.4kWh to 28.8kWh. Our Tiny Home Off Grid Solar & Battery Unit system includes:

Our complete off grid solar power systems are a kitset solution that include EVERYTHING you need for going off the grid in New Zealand - solar panels, batteries, charge controllers, inverters, cables PLUS full instructions with lifetime support from the GridFree team!
