Hi all, a quick update, i built my seplos mason kit a few months ago, i charged it then discharged it then charged it again to 20%, then disconnected it from my inverter etc as my pylontechs came back from repair . Anyhow, I connected the seplos battery back up to my inverter and i have been using it to power my home office for the past 10 days .

Question: Does anyone know if this vertical format allows for the new heating pads they are selling? I know the older, horizontal ones could. Mine is going to be in a pole barn that is not heated and gets to be < 10F. ... According to Seplos, no it will not fit - Saying that I have ordered a pair of these heating pads and plan on retrofitting ...
