

5 ???· France's TotalEnergies and Omani energy company OQ Alternative Energy have signed agreements to develop 100 MW of solar and two 100 MW wind projects. Construction ...

4 ???· About TotalEnergies Oman TotalEnergies has been present in Oman since 1937. The Company launched in 2024 the integrated Marsa LNG project (80%), which combines natural ...

In an early boost for Oman's drive to localize the production of hardware for its giga-scale green hydrogen projects, Chinese solar photovoltaic manufacturer Hainan Drinda New Energy Technology has announced the signing of a provisional agreement with Oman Investment Authority (OIA) for the establishment of a first-ever photovoltaic cell ...

4 ???· About TotalEnergies Oman TotalEnergies has been present in Oman since 1937. The Company launched in 2024 the integrated Marsa LNG project (80%), which combines natural gas production from Block 10 ...

Hydrom, the green hydrogen orchestrator of the Sultanate of Oman, announced signing two new green hydrogen projects in Dhofar worth \$11 billion. The signings follow the successful completion of Hydrom's second round of auctions bringing the total hydrogen production in Oman to 1.38 million tonnes per year (mtpa) by 2030.

4 ???· TotalEnergies and OQ Alternative Energy will own 49% and 51% of the joint venture, which will oversee three renewable projects OQ Alternative Energy (OQAE), Oman's state-backed renewable energy company, has signed agreements with France's TotalEnergies to develop 300 megawatts (MW) of renewable energy projects nationwide.

According to the think-tank, Oman is anticipated to witness a dramatic increase in its renewables capacity, from around 700 MW presently to almost 3 GW in 2025, rising to 4.5 GW by 2030. As a result, renewable energy will have a 30% share of overall generation capacity by the end of this decade, up from 3% presently.

5 ???· France's TotalEnergies and Omani energy company OQ Alternative Energy have signed agreements to develop 100 MW of solar and two 100 MW wind projects. Construction will begin in early 2025.

Drinda, the parent company of JTPV, has officially initiated the establishment of a 10GW high-efficiency N-type solar cell manufacturing facility in Oman. This milestone project is scheduled ...

Chinese PV cell maker Hainan Drinda New Energy Technology Co., Ltd. is planning to build a factory for the
