

# New solar panel technologies Mexico

Once complete, Maxeon estimates the new facility will create up to 1,800 jobs, including highly skilled manufacturing and engineering jobs, and produce millions of solar panels each year for ...

Maxeon Solar Technologies will build a \$1 billion, three-gigawatt solar panel factory in Albuquerque, New Mexico, the company announced Thursday. The plant will be the Singapore-based manufacturer's first production facility in the U.S., and it will create 1,800 jobs.

The new world-class, 3-gigawatt facility will be designed to produce latest-generation TOPCon PV-silicon cell technology and the Company's proprietary shingled-cell Performance Line solar modules to meet rapidly ...

Maxeon Solar Technologies has chosen Albuquerque, New Mexico, as the location for its first U.S. manufacturing expansion. The new 3 GW facility will produce TOPCon PV-silicon cell technology and the Maxeon's proprietary ...

"I am proud to welcome Maxeon Solar Technologies' first US-based manufacturing facility to New Mexico," said Gov. Michelle Lujan Grisham. "This private investment shows how our state programs, paired with President Biden's Inflation Reduction Act, have ...

Once complete, Maxeon estimates the new facility will create up to 1,800 jobs, including highly skilled manufacturing and engineering jobs, and produce millions of solar panels each year for the U.S. market. The New Mexico facility will expand Maxeon's global manufacturing footprint, which

This latest announcement helps establish New Mexico as a rapidly emerging hub for solar cell manufacturing, following Maxeon Solar Technologies' announcement in August 2023 that it would...

The new world-class, 3-gigawatt facility will be designed to produce latest-generation TOPCon PV-silicon cell technology and the Company's proprietary shingled-cell Performance Line solar modules to meet rapidly growing demand for domestically produced solar panels. The new plant is planned to serve both the Utility Scale Power Plant market and ...

The Singapore-based company, Maxeon Solar Technologies, is planning to build a 1.9 million-square-foot complex at Mesa del Sol in Albuquerque. Maxeon is the first commercial-scale solar cell manufacturer in the country and is expected to employ up to ...

Maxeon Solar on Thursday said it will spend more than \$1 billion to build a solar cell and panel factory in Albuquerque, New Mexico, spurred by manufacturing subsidies in U.S. President...

## New solar panel technologies Mexico

"I am proud to welcome Maxeon Solar Technologies' first US-based manufacturing facility to New Mexico," said Gov. Michelle Lujan Grisham. "This private investment shows how our state programs, paired with President Biden's Inflation Reduction Act, have charted a path for New Mexico as a leader in growing the clean energy economy and ...
