At Clayton Power we create innovative mobile power solutions which help our customers to adapt to greener energy solutions. Through technology leadership and sparring with our customers, we find solutions which challenge the climate changes, achieve improved energy efficiency and reduce the need for fossil fuel.

Compact power supply without idling in the vans of Aarsleff Rails . Aarsleff Rail has chosen to install a Clayton Power LPS power supply in their vans. The LPS is a smart and environmentally friendly alternative to traditional inverter/battery systems, as it does not require the vehicle to idle to maintain power supply.

At Clayton Power, we create innovative mobile power solutions which help our customers to transform towards greener energy solutions. Clayton Power A/S was founded in 2000 and is based in Denmark, Odense. Our legacy and pioneering spirit is characterized by inhouse development with a green and innovative mindset.
