What is Bluestem Energy Solutions?

Bluestem Energy Solutions is a developer, owner, and operator of renewable energy resources headquartered in Omaha, Nebraska. We are a team of dedicated professionals with a mission to provide affordable, reliable, and sustainable generation solutions for our utility partners.

Why should you choose bluestem?

Bluestem brings quality work due to their extensive experience and strong relationships, and they deliver with integrity. Bluestem's price, coupled with the value that we can receive through the sale of energy and wind attributes, such as the renewable energy certificates that we will receive from the project, will save money.

Why did Loup sign a wind power contract with bluestem energy?

Bluestem came along, and they were tenacious. They were willing to listen to our requests, what our concerns were, and negotiated how we could do those things together. Loup's venturing into a wind power contract with Bluestem Energy for locally produced wind power was a big and exciting move. I believe it was a prudent step into the future.

A solar energy project in Madison, Nebraska was selected to receive a Powering Affordable Clean Energy (PACE) program award from the U.S. Department of Agriculture. The USDA is providing the developer, ...
