Will Saudi Arabia tender a 2GW solar PV project in 2023?

In December 2023, Saudi Arabia announced that from 2024 onwards, it will tender 20GW of renewable energy projects to reach a total installed capacity of 130GW by 2030. A consortium led by the China Energy Engineering Corporation (CEEC) has signed an EPC contract for the 2GW Haden PV project in Saudi Arabia.

Will 61mw solar power plant connect to the grid?

This project was awarded in the first round of Large Scale Solar PV projects' bidding program, and the 61MWp solar power plant is set to connect to the Grid by the end of 2018. The green electricity generated by the solar power plant will be sufficient to satisfy the need of over 80,000 households.

Where will 61mw solar power plant be built in Malaysia?

Under the agreement, all three companies are committed to build a 61MWp utility solar power plant in Malaysia. Located at Gambang in Kuantan, Pahang, over 220,000 solar modules will be installed on the 110 hectares land.
