

Micronesia issues invitation to bid for solar minigrid project. About 2,600 miles northwest of Tonga, the Yap State Public Service Corporation (YSPSC) has issued an invitation to bid (ITB) for the supply and delivery of solar and energy storage minigrids systems.

Sino Soar Hybrid (Beijing) Technology Co., Ltd. has emerged as the successful bidder for the design, supply, installation, and commissioning of mini grids in the towns of Satowan, Udot, and Eot in the State of Chuuk, Federated States of Micronesia.

In response to Australia's request, the FSM Government has agreed to undertake feasibility studies on the viability of constructing solar mini-grids in the islands of Yap and Pohnpei. This collaborative effort aims to provide sustainable and reliable power sources to these remote communities.

Dubbed ARMONIA, the microgrid will consist of a 45MWh energy storage system, 35MW of solar energy generation and diesel generators to give the Palau grid system an overall installed power of more than 100MW. Construction should begin by the end of 2018, with commissioning taking place before the end of 2019.

Yap State Public Service Corp. is seeking bids to supply solar minigrids with battery energy storage systems (BESS), totaling 79 kW, for Yap Island in the Federated States of Micronesia.

Relying on strong R& D capabilities, sophisticated engineering experts, advanced supply chain and rich experiences in resources integration, SINOSOAR provides customized turnkey ...

The chosen contractor will sign an agreement with the utility company, which is administering the tender, to supply equipment covering two solar minigrid projects on the island. The minigrid systems will have a combined capacity of 79 kW.

Sino Soar Hybrid (Beijing) Technology Co., Ltd. has emerged as the successful bidder for the design, supply, installation, and commissioning of mini grids in the towns of Satowan, Udot, and Eot in the State of Chuuk, ...

Relying on strong R& D capabilities, sophisticated engineering experts, advanced supply chain and rich experiences in resources integration, SINOSOAR provides customized turnkey solutions for solar hybrid and off-grid projects all over the world.

The state-owned electricity supplier in the Federated States of Micronesia, Yap State Public Service Corporation (YSPSC) has invited bidders to deploy solar PV minigrids in Yap, a remote island in the western Pacific.
