Somos unas de las primeras empresas dedicadas a la venta e instalación de paneles solares en Paraguay, contamos trabajos realizados en todo el país y con mucho orgullo presentamos algunos de nuestros clientes satisfechos

Paraguay has one of the highest proportions of renewable energy in South America. Hydropower constitutes around 99.5% of the installed electricity capacity. This makes it highly dependent on the rivers that feed the country's main hydroelectric plants, from where most of the electricity produced is exported to neighboring countries.

A binational integrated solar industry project, announced just over a year ago, aims to build a vertically integrated solar manufacturing industry along the border between Brazil and Paraguay. But the project is now on hold pending an update and reassessment by its new managers.

En One Solar somos especialistas en optimizar el valor de la energía. Contamos con dilatada experiencia en tecnología fotovoltaica, almacenamiento energético y mercado eléctrico. UN EQUIPO COMPROMETIDO

Solar Energy in Paraguay: What Benefits Could It Bring? Paraguay could benefit from energy diversification by opening a solar farm. This would offer multiple economic and social advantages. First, it would create direct and indirect jobs during its construction, operation, and maintenance, benefiting local communities.
