

# Open competitive negotiation for photovoltaic brackets

Will a new European Solar charter support EU photovoltaic manufacturing?

Leaders pledge extended support with new European Solar Charter to back European EU photovoltaic manufacturing. Leaders of 23 EU member states and the European Commission have signed a Solar Charter pledging to step up financing opportunities, skills capacity and to address unfair competition in the bloc during an Energy Council.

Does the EU have a competitive advantage in solar PV production?

When it comes to economic growth, it is difficult to expect solar PV manufacturing to provide a major contribution, given that the EU has no comparative advantage in producing the existing generation of solar panels, and it is not clear where any unrealised advantage might lie. Source: Bruegel based on Ignaciuk (2023).

What is the solar photovoltaic industry alliance?

26-10-2022 On the 11th of October 2022; the Commission formally endorsed a new Solar Photovoltaic Industry Alliance, with the aim of scaling up manufacturing technologies of innovative solar photovoltaic products and components in the EU.

How does the EU support the European solar PV manufacturing sector?

Over the last years, the EU has taken initiatives to strengthen its support to the European solar PV manufacturing sector, which includes several globally competitive companies in several steps of the value chain.

What is a European solar PV industry alliance?
