What are UBL solar batteries?

UBL solar batteries are deep cycle batteries made of durable black polypropylene and come in the following sizes: EB50 (50AH), EB70 (70AH), and EB100 (100AH). They require distilled water with a maximum conductivity of 30Ms/cm. We advise our customers to use distilled water instead of tap water.

Are gold star solar batteries good?

Gold Star Solar Batteries | Perfect for your homes. Our solar VRLA batteries are a reliable backup for solar applications and offer various advantages. Some of the advantages are listed below : Our VRLA batteries are designed to be compact thus providing more power output in small size. Thus reducing the bulkiness with a smaller footprint.

Are motorcycle batteries good for solar energy storage?

MF batteries are designed to withstand deep discharges without losing their capacity. This makes them suitable for solar energy storage systems, where regular charging and discharging occur as part of the energy cycle. Motorcycle batteries have several advantages that make them well-suited for their intended purpose :

Who is gold star battery manufacturer?

Explore our blog section to read about a diverse range of topics, from industry innovations, updates, theories to latest news, keeping you informed and inspired. We are one of the largest battery manufacturers in Uganda. Gold Star is a reputable and reliable battery manufacturer.

Are maintenance-free batteries a good choice for solar applications?

They can be easily used in places with limited space availability. A maintenance-free (MF) battery is an ideal choice for solar applications due to its specific advantages : MF batteries are designed to withstand deep discharges without losing their capacity.
