

Pace bms p16s200a São Tomé and Príncipe

São Tomé and Príncipe, [a] officially the Democratic Republic of São Tomé and Príncipe, [b] is an island country in the Gulf of Guinea, off the western equatorial coast of Central Africa consists of two archipelagos around the two main islands of São Tomé and Príncipe, about 150 km (93.21 mi) apart and about 250 and 225 km (155 and 140 mi) off the northwestern coast of Gabon.

I have a Pace BMS with assumed bad firmware because the CAN and RS485 protocol read from the BMS is blank in the PC software and a choice cannot be selected. I would like to reflash the firmware and see if it fixes this issue. ... Its a P16S200A-21382-1.00 so I believe its the 200A version from around July 2022. Like Reply. Arque.45. Joined Feb ...

PACE BMS 16S 51.2v. Upgrade your battery system with the cutting-edge highest current 300A 51.2V Battery Management System (BMS) designed for LiFePO4 batteries. This high-performance BMS ensures optimal performance, safety, and ...

As a core component supplier in the new energy industry, PACE has independently developed and designed lithium battery management system is widely used in base station backup power, household energy storage, high voltage DC, electric bicycles, low-speed vehicles, Change lead-acid to lithium battery, outdoor portable power supplies etc. PACE has ...

For PACE BMS to work with Victron, it requires release candidate firmware 3.0.0~15 or newer. Otherwise charging stops at 52.4v. I requested Victron modify the firmware and submitted the code to them that fixes this, it was implemented to the candidate release stream first thing this year...I'm not sure if this is what Andy was having trouble ...

The Issue i found was the Software Versions of the BMS tools (I used 10 different versions from different sources and threads) i used previously was incorrect and the BMS tool would timeout and not connect.
