

Does Azerbaijan have a strategic energy cooperation with the EU?

Commissioner for Energy, Kadri Simson, said: "The EU and Azerbaijan's strategic energy cooperation has shown all its flexibility and dynamism. In 2019, there was only gas on the horizon. Not today. The Southern Gas Corridor has evolved to become a forum for cooperation also on renewables and electrification.

Will Azerbaijan increase natural gas deliveries to the EU?

Azerbaijan has already increased the natural gas deliveries to the EU and this trend will continue, with up to 4 billion cubic meters of additional gas this year and volumes expected to more than double by 2027.

How will Azerbaijan contribute to the REPowerEU plan?

This will contribute to the diversification objectives in the REPowerEU Plan and help Europe to end its dependency on Russian gas. Based on the strengthened energy cooperation, Azerbaijan is already now increasing deliveries of natural gas to the EU, from 8.1 billion cubic metres in 2021 to an expected 12 bcm in 2022.

Where can I find Azerbaijan's energy commissioner's full remarks?

The Commissioner's full remarks at the inaugural session of the Southern Gas Corridor Advisory Council are available here. You can also find online her remarks at the closing press conference with Azerbaijan's Energy Minister, Parviz Shahbazov.

How will the EU and Azerbaijan work together?

Currently, the EU and Azerbaijan are also negotiating a new comprehensive agreement, which will allow for enhanced cooperation in a wide range of areas, including economic diversification, investment, trade and making full use of the potential of civil society, while underscoring importance of human rights and rule of law.

What is a strategic partnership in the field of energy?

The new Memorandum of Understanding on a Strategic Partnership in the Field of Energy signed by the two Presidents today includes a commitment to double the capacity of the Southern Gas Corridor to deliver at least 20 billion cubic metres to the EU annually by 2027.

energy dimension, favouring the creation of a multidimensional strategic partnership. The focus of the Rome-Baku axis is fossil energy. Azerbaijan exports 57% of its oil to Italy, the latter being Azerbaijan's top oil destination market. By the same token, Azerbaijan is among the top oil suppliers to Italy, averaging about 15% of total imports.
