

Pay as you go solar system Oman

How do I pay for solar panels?

With solar panels, we offer a few options for payment: Purchase your system outright and own your energy from day one. Similar to a car loan, you can finance your solar purchase through Symtech Solar and pay in monthly installments. You'll immediately benefit from savings on your utility bill.

Should you buy or lease a solar system?

Purchase your system outright and own your energy from day one. Similar to a car loan, you can finance your solar purchase through Symtech Solar and pay in monthly installments. You'll immediately benefit from savings on your utility bill. With a lease, you'll make low monthly payments with no money upfront.

How much does a solar panel system cost?

Buying an average-size solar panel system generally costs around 2.00 USD per watt, therefore, a 3kw system will cost approximately 6,000 USD (including installation). Leasing a solar panel system is \$0-down and has fixed monthly payments. Whether you buy or lease, the solar energy you produce will lower your utility bill.

Grid-connected or "Grid-interactive or two way Grid Interconnection solar power systems are the very latest technology, and can be likened to having your own solar power station located on your house roof, that silently generates green electricity for your own use. Grid-Connected Solar ...

Similar to a car loan, you can finance your solar purchase through Symtech Solar and pay in monthly installments. You'll immediately benefit from savings on your utility bill. Lease: With a lease, you'll make low monthly payments with no money upfront.

With 320 sunny days per year and peak sunlight intensity reaching nearly 6000 watt-hours per square meter, Oman enjoys abundant solar resources that provide a competitive advantage for developing world-leading solar projects.

Pay-as-you-go (PAYG) solar is a financing model that allows customers to purchase solar home systems gradually, making small payments over time until they fully own the system. It is a popular financing option in developing countries where access to electricity is limited and traditional financing options may not be available.
