

Photovoltaic panels as home emergency power supply

What is emergency power supply (EPS) for solar?

Emergency power supply (EPS) for solar is a battery function that works to keep your home's lights on during a power cut. Most solar panel systems will automatically disconnect from the grid when it goes down, to ensure the panels don't send electricity through power lines and electrocute the engineers who are working on them.

Should I add an EPS system to my solar panel?

Then you might want to consider adding an EPS system (emergency power supply) to your solar panel and battery storage system. An EPS for solar allows you to simply flick a switch and enjoy an uninterrupted power supply while you wait for your power company to restore the supply! What is EPS or Emergency Power Supply for Solar?

Can a solar PV system power my home?

Unlike the other solutions which are restricted by your battery capacity and storage at the point of the grid failure, in this type of solar PV system, as long as there is sunshine your system will be able to power your home. Essentially providing full off-grid capabilities.

Does Deege solar offer emergency power supply?

At Deege Solar we have options for both automated and manual change over Emergency power supply as well as full grid solutions. EPS is an optional extra that can be added to our Solar PV Packages for home and business owners looking to add security. A double 13A socket can be wired to your solar battery system as an EPS outlet.

Is EPS a good option for a solar panel battery backup?

EPS or Emergency Power supply can be an expensive addition to any solar panel solution, however worthwhile under the right circumstances. If you are a UK home or business owner interested in discussing solar panel battery backup, contact our award-winning green team today on 0131 210 0405 for expert advice.

What is an EPS for solar?

An EPS for solar allows you to simply flick a switch and enjoy an uninterrupted power supply while you wait for your power company to restore the supply! What is EPS or Emergency Power Supply for Solar? Have you heard of EPS (emergency power supply) functionality for a solar system?
