Power banks, on the other hand, are very small batteries that are used to charge phones a few times. Power stations have regular AC house plug outlets, while power banks generally have just a USB plug for your phone or laptop charger. They're really just an extra battery for your devices, while a power station can be used for just about anything.

# Power bank for house Slovakia

The average power bank takes between eight and 12 hours to charge via USB and about half that if plugged into the wall. Not all power banks support both charging methods, so be sure to note which ones meet your charging needs. Q. Does it matter if a power bank's ports are USB 2.0 and not USB 3.0? A. Yes, sort of.
