# Power bank home India

The conversion depends on your battery Volts. This is an all-inclusive battery power you can carry which is your mobile + laptop + power bank + tabs etc., So lets say 100Wh will be converted to ~16666mAh if the battery is 6V and 8333 if the battery is 12V. So considering 6V battery, which is usual, you are shooting the given limit by ~3500mAh.
