Is the Isle of Man a gas-fired power station?

This power station is the only gas-fired power station operating on the Isle of Man. With an expected retirement year of 2035, the government of the Isle of Man is working to phase out all fossil fuel fired power generation by 2040.

Who supplied electricity to the Isle of Man?

The Douglas Corporation and the Isle of Man Electricity Board were the sole suppliers on the island, apart from small areas supplied by the Manx Electric Railway Company. By the mid-1950s the Pulrose power station of the Douglas Corporation had a total generating capacity of 15.475 MW. This comprised the following plant:  
Coal-fired boilers:

When did the Isle of Man become part of the Utilities Authority?

In 2014 it became part of the Manx Utilities Authority when it was merged with the Isle of Man Water and Sewerage Authority. Following the First World War the development of utilities on the Isle of Man was considered essential.

What is the Isle of Man Electricity Board?

The Isle of Man Electric Light and Power Act 1932 as amended by the Isle of Man Electric Light and Power Amendment Act 1935 established the Isle of Man Electricity Board with the authority to supply electricity throughout the Isle of Man but excluding Douglas and the Howstrake Estate.

How many smart electricity meters will be installed in the Isle of Man?

A four-year project to roll out about 50,000 smart electricity meters across the Isle of Man has begun. About 8,000 pre-payment key meters will be replaced during the first phase of the £18.2m programme, Manx Utilities said. The upgrading of the infrastructure at all other domestic and commercial properties will begin in early 2023.

Will the Isle of Man be short of baseload power?

Both UK and RoI are predicted to become short of baseload power over the next decade. Opportunities for the Isle of Man to provide stabilising power to GB or ROI from a large-scale baseload power station, e.g. biomass or a small modular reactor? Neither option is without challenge, but likely provide the greatest potential for export.

The Manx Electricity Authority (Manx: Lught-reill Lectraghys Manninagh) was a Statutory Board of the Isle of Man Government which generated and supplied electricity for the Isle of Man. In 2014 it became part of the Manx Utilities Authority when it was merged with the Isle of Man Water and Sewerage Authority .
