

Power wall 3 South Africa

Unlike generators, Powerwall keeps your lights on and phones charged without upkeep, fuel or noise. Pair with solar and recharge with sunlight to keep your appliances running for days. Find out how you can take control over your home's energy with solar and Powerwall.

Powerwall can be wall-mounted or floor-mounted, and both Powerwall and the Gateway have multiple cable entry points for flexible installation. Installers can use a smartphone, tablet or laptop to commission the Powerwall system. Installation should be performed by a certified electrician.

The first Tesla Powerwall in South Africa has been installed in Johannesburg, according to authorised reseller Dako Power. The company plans to gather and use data based on the performance of the initial unit to market the rechargeable lithium-ion product when it is launched at The Solar Show Africa next month, said Dako Power MD Peter Dalglish.

The Tesla Powerwall is a battery that stores energy, detects outages and automatically becomes your home's energy source when the grid goes down. Unlike generators, Powerwall keeps your lights on and phones charged without upkeep, fuel or noise.
