Power works Brunei

That said, I recommend V-power if you really like to take care of your car and want what's best for it. I don't recommend V-power on older cars (2005 and before), but this is just personal preference. V-power diesel is a mystery to me. I know BMW 5 series has a diesel line so you probably can ask more from them.

Electricity in Brunei Darussalam - voltage and frequency. All power sockets in Brunei Darussalam provide a standard voltage of 240V with a standard frequency of 50Hz. You can use all your equipment in Brunei Darussalam if the outlet voltage in your own country is between 220V-240V.
