Noord, Aruba is an excellent location for generating energy through solar photovoltaic (PV) systems all year round. This is due to its tropical climate where sunlight is consistent throughout most of the year. The amount of electricity produced by each kilowatt of installed solar varies slightly with the seasons: you can expect about 6.87kWh per day in summer, 6.53kWh per day ...

Powerful solar panel Aruba

The more powerful a solar panel, the bigger, heavier and more expensive it will tend to be. Weight: The average 1 x 2m solar PV panel weighs up to 30kg (15kg/m²), on top of roof tiles that weigh around 30-60kg/m². Your poor roof! If your roof is on the old side or gets battered by the wind, lightweight panels are a better bet.

Better Solar Aruba delivers affordable solar solutions for your home and business. Our motto is: Free energy for Aruba. We can provide and install a complete solar solution or you can choose from our Cash & Carry packages.

These projects include, the 3.4 MW Solar Park at the Reina Beatrix Airport, solar panel installations at Scol Basico Kudawecha, Abraham de Veer School and the multi-functional accommodation center in the district of Noord.
