

Primegrid energy Iraq

Does Iraq have a reliable electricity grid?

Now, two decades after the 2003 US invasion, Iraq has failed to see improvements in the electricity infrastructure. Although the disparity between supply and demand is widening due to population increase and rising temperatures, corruption remains the largest obstacle to a reliable electricity grid.

Will totalenergies build a solar power plant in Iraq?

French energy major TotalEnergies will build a 1-gigawatt solar power plant in Iraq as part of a cluster of contracts it was awarded in 2021 for an integrated project that entails a total investment of \$27 billion over 30 years.

Will Iraq be able to connect to the GCC electricity grid?

Another planned power initiative aims to connect Iraq to the GCC electrical grid. This endeavor envisions delivering 1.8 gigawatts of electricity by 2025, stretching from the al-Wafra station in Kuwait to Iraq's Al-Faw station in the south.

What does the totalenergies deal mean for Iraq?

The TotalEnergies deal aims to help Iraq harness the natural gas emitted by its oil wells, achieve a more balanced energy portfolio, and address some of its domestic electricity shortages. It would also be significantly cheaper for Iraq to harness its own gas rather than to continue with its current agreement with Iran.

How much natural gas did Iraq produce in 2022?

Iraq consumed significantly more natural gas than it produced in 2021, primarily for electric power generation. The country also flared over 630 billion cubic feet (Bcf) of natural gas in 2022 due to inadequate pipeline and processing infrastructure, making it the second-largest flaring country globally.

Is foreign help enough to fix Iraq's energy problems?

Foreign help is not enough to fix energy issues, domestic reform is necessary. This past July, Iraq and France's TotalEnergies finalized the Gas Growth Integrated Project, a \$27 billion energy deal aimed at Iraq's natural resources and improving the country's electricity supply.

At Primegrid Renewable Energy limited, Nigeria, we provide top-notch, proactive customer service, even if it means going the extra mile to keep all our customers satisfied. We will carefully listen to you and address all your questions. We are constantly on the lookout for opportunities to improve our customer service and satisfaction.

Primegrid Energy is a leading provider of sustainable energy infrastructure and management solutions for small, medium and large scale facilities. We provide innovative services to organizations that generate and distribute energy from solar, wind, hydropower, ocean (tidal), geothermal, biomass, biofuels and gas, fuel
