Where will solar panels be made in Puerto Rico?

Aguadilla, Puerto Rico - Great Lakes Solx PR, LLC ("Solx"), a minority-owned solar panel manufacturing company, has announced plans to establish the first solar panel manufacturing facility in Puerto Rico. The company will operate from the 65-acre Hewlett Packard (HP) Campus in Aguadilla, with commercial operations expected to begin in April 2025.

Will Solx be able to build a solar panel factory in Puerto Rico?

Solx has signed a 10-year lease with potential extensions on the 150,000-sq-ft building on HP's 65-acre campus. The company is investing \$20 million into the facility to get it ready for panel manufacturing. Siting a panel manufacturer in Puerto Rico was always the goal for Solx.

Will a contract solar panel assembly facility open in Puerto Rico?

A contract solar panel assembly facility will soon open in Aguadilla, Puerto Rico, that will supply the utility-scale market on the island and hopefully the greater market on the U.S. mainland. Aguadilla, Puerto Rico. Credit: U.S. Corps of Engineers

Why should Puerto Rico invest in Solx solar?

The Solx facility will play a pivotal role in helping Puerto Rico achieve these targets, producing up to 1.2 gigawatts of solar panels annually to support local projects and broader markets across the mainland United States.

What does Solx do in Puerto Rico?

With operations based in Aguadilla, Puerto Rico, Solx is dedicated to supporting the island's renewable energy goals and providing high-quality solar panels to local and U.S. markets. Solx to open Puerto Rico's first solar panel facility in Aguadilla by April 2025, creating 250 jobs and supporting renewable energy goals.

Will Puerto Rican solar projects benefit from the Jones Act?

The Jones Act requires all goods transported by water between U.S. ports be carried on U.S.-made ships and crewed by Americans. Puerto Rican solar projects would benefit from buying Solx-made panels and not having to pay extra shipping fees to use other domestic panels from the mainland.
