2 ???; The U.S. Department of Energy said Thursday that \$365 million is available to install solar and battery storage systems in homes and healthcare centers across Puerto Rico.

The Solar Access Program, funded through the U.S. Department of Energy's Puerto Rico Energy Resilience Fund (PR-ERF), aims to deploy solar and battery storage systems to up to 30,000 vulnerable households in Puerto Rico at no up-front cost to homeowners.

Delve into the complete breakdown of the cost of solar panels in PR below, or get a personalized solar quote for your home in just a few moments! Get started with your free Solar Savings quote!

Solar panels are only worth it if you have enough money to pay costs upfront. Financing is not worth it. Some would argue that QoL on not having to do maintenance yourself is "worth" the price hikes, but considering that anyone capable of climbing up a roof should be able to do the amount of work those companies will ever do (ie clean up panels every now and then)...

The cost to install solar panels in Puerto Rico ranges from \$10,000 to \$30,000, based on the system's size and installation complexity. Despite the initial high cost, solar power can significantly reduce electricity bills over time, making it a smart financial choice.
