Does Puerto Rico have a solar program?

To further assist Puerto Rico's energy resilience and clean energy goals, DOE today announced that on February 22, 2024, residents can apply for DOE's Programa Acceso Solar (Solar Access Program) -- a program designed to connect up to 30,000 low-income households with residential rooftop solar and battery storage systems with zero upfront costs.

Why is Puerto Rico funding solar & battery storage?

Funding is Part of a \$1 Billion Effort to Deploy Solar and Battery Storage to Puerto Rico's Most Vulnerable Residents, Helping Increase Resilience and Lower Energy Bills for up to 40,000 Households

What is the Puerto Rico energy resilience fund (PR-ERF)?

SAN JUAN, PUERTO RICO-- The U.S. Department of Energy (DOE) today announced up to \$453.5 million from the Puerto Rico Energy Resilience Fund (PR-ERF) aimed at increasing residential rooftop solar PV and battery storage installations across the region, with a focus to reach and support Puerto Rico's most vulnerable residents.

How much money does Puerto Rico have to pay for solar?

Up to \$190 million is available to Puerto Rico's Housing Administration and a private company to pay for solar and battery installations in public housing common areas and subsidized, multifamily housing properties. Another \$175 million is available for certain healthcare and dialysis centers.

Will Puerto Rico have a future energy system?

The future energy system in Puerto Rico can be affordable for the most vulnerable customers, resilient for the most remote communities, obliging of land-use interests, and supportive of distributed and local ownership.

Will Puerto Rico's solar power system rebirth?

The degree of distributed solar and storage expected in Puerto Rico is an amount that has not been attempted elsewhere. The journey of Puerto Rico's power system from widespread wreckage to renewable and resilient rebirth could be an enduring example for others to follow.
