The project will result in an annual offset of about 1.4 million tons of CO2 equivalent emissions, significantly contributing to environmental sustainability

What is Rajasthan known for?

Rajasthan plays a notable role in the manufacturing of fiberglass, resin, and plastic products in India. These materials, comprising 11-16% of the turbine mass, are used in the blades and nacelle of wind turbines. The state has large tracts of flat and desert land, ideal for setting up extensive solar and wind farms.

How much did ReNew invest in Rajasthan?

ReNew has invested INR 21,000 crore in Rajasthan for completed and under-construction projects, with plans to scale up to INR 62,000 crore by 2030 as part of a memorandum of understanding with the state government.

Does SECI have a power sale agreement with RUVNL/Rajasthan DISCOM?

SECI has also executed a Power Sale Agreement (PSA) with Rajasthan Urja Vikas Nigam Limited (RUVNL)/Rajasthan Discom for the same duration. The project will result in an annual offset of about 1.4 million tons of CO2 equivalent emissions, significantly contributing to environmental sustainability.

Existing Clause 12A: Allotment of Land to the R.R.E.C or Rajasthan Solar Park Development Company Limited: Land may be allotted to RREC or Rajasthan Solar Park Development Company Limited on the following terms and Conditions, namely: - The land shall be allotted on leasehold basis for a period of 99 years.

Despite its strong potential, Rajasthan has lagged behind in harnessing rooftop solar PV vis-à-vis other states such as Gujarat, Maharashtra and Karnataka. As per information shared during the Vibrant Gujarat Summit 2024, 500,000 homes (out of approximately 15 million LT connections) in Gujarat have adopted rooftop solar.

Top solar dealers and distributors like Sungrow, Saatvik, Etrica Power, Orbit Solar, Vareyn Solar and others have played pivotal roles in solidifying Rajasthan's position as a solar energy hub. Together, these entities represent a collaborative force propelling India towards a cleaner, greener, and more sustainable future powered by solar energy.
