

Rct power battery 11 5 Ecuador

Are RCT power batteries safe?

The RCT Power Battery excels at safety and in battery lifetime. The energy storage for solar electricity uses lithium iron phosphate battery cells that are considered to be among the safest lithium ion batteries.

What is a RCT Power Battery?

Get the most out of your photovoltaic system. Storage of generated solar energy is a key issue for owners of solar installations. The RCT Power Battery provides a particular safe and resource-conserving solution for the management of energy needs of residential homes and commercial buildings and facilities.

Why should you choose a high voltage battery from RCT power?

The high voltage battery from RCT Power guarantees highest efficiency and autonomy. The modular system can be upgraded and adapted to fit user requirements. Your system grows to accommodate new energy consuming appliances, e.g. an electric car. All our batteries are delivered in the elegant design that is typical for RCT Power.

Powerful RCT Power App Full data visualization Monitoring from every location Configuration options One click update FLEXIBLE AND UPGRADEABLE ... Modular battery storage system RCT Power Battery 11.5-2. The RCT battery is a resource-saving and safe solution for use in private residential buildings. The modular system ensures flexible retrofitting and therefore adapts perfectly to the user's changes and requirements.

The high voltage battery from RCT Power guarantees highest efficiency and autonomy. The modular system can be upgraded and adapted to fit user requirements.
