Rezolv Energy has acquired the rights to build and operate a 229 MW solar plant in Silistra Municipality in north-eastern Bulgaria. Named "St. George", construction has started in Autumn 2024 and the plant is expected to be completed before the end of 2025. Once constructed, it will be one of the largest solar power plants in Bulgaria.

Equatorial Guinea's domestic energy consumption is small - its population of around 1.75 million consumes only 4 percent of the country's oil output - which creates a sizeable surplus for exports. The country's location at an almost equal distance between the markets in Europe, Asia and North America gives it an additional advantage.
