Rho Motion's Evaluation, CATL's integration within the energy transition. CATL is already the world's largest battery manufacturer serving clients all over the world. The company serves over 90 vehicle OEMs as well as many other companies in the consumer electronic and ESS industries. To integrate itself further especially within the EV ...

Rho Motion's evaluation, opportunities lie in future LFP volumes. The LFP recycling market remains constrained by the availability of feedstock, with most feedstock focused in China. However, as more LFP feedstock become available, there is potential for growth. As OEMs and battery producers increase their LFP product lines, the volume of LFP ...
