What is Ric energy?

Our civic awareness drives us to take concrete actions and work together to create a sustainable future and improve the quality of life for present and future generations. Send us your inquiry or project and we will contact you. RIC Energy is a multi-technology and multi-country company specialized in the development of renewable energy projects.

How much money will Ric Energy Invest in ddundu project?

We have planned to invest \$200M in two phases of the Project, and plan to commence construction early 2025 in #Ddundu. RIC Energy is also developing similar projects in other countries in #Africa. ----- El consejero delegado de RIC Energy Africa, Rajesh Chugh, habla con NTV Uganda sobre nuestro proyecto municipal #WasteToEnergy en #Uganda.

We are committed to promoting the decarbonization of energy production and encouraging innovation in renewable energies, minimizing our dependence on fossil fuels. We also advocate adopting a lifestyle based on energy sobriety. We recognize that the fight against climate change is a long, arduous and complex challenge.

At RIC Energy we participate in the development, construction and operation phases of more than 19,000 MW of renewable projects on four continents. We promote sustainable initiatives with a positive environmental impact in 11 countries, generate employment and contribute to the decarbonization of mobility and industry.

We specialize in large-scale grid-connected storage projects that will enable the penetration of renewable energy projects and contribute to the stability of the Spanish electricity grid. Our projects offer an innovative technological solution aligned with the most demanding environmental and territorial requirements.

RIC Energy is an independent group and a leader in the development of multi-technology renewable energy projects. With a clear strategy focused on establishing itself as a selective Independent Power Producer (IPP) in mature technologies and markets, the company operates across four continents with a development and construction portfolio ...

Established in 2005, Madrid-based RIC Energy Group focuses on utility-scale development of solar, hydrogen and energy storage projects. The firm not only develops projects in Spain, but also in the US, Africa and India.
