

Rolling energy limited Zambia

Rolling Energy drives Nigeria's clean energy shift with Compressed Natural Gas (CNG), paving the way for a sustainable, cost-effective future. Install CNG Conversion kits in two wheelers, four wheelers, three wheelers, Heavy Vehicles, and Generators.

Rolling Energy creates and installs solar panel systems for homes, housing societies, and businesses. We're dedicated to innovation and quality, working hard to advance the Har Ghar Solar mission, one rooftop at a time. Founded in 2023, we believe solar energy can cut down carbon footprints and transform how we power our homes and businesses.

Delivered a comprehensive business plan that outlined strategies for process improvement, implementation, and scaling for Rolling Energy, a pioneering company focused on providing sustainable alternative fuel through vehicle conversion to CNG and refilling vehicles with gas across major states in Nigeria.
