How long do solar panels last?

Most solar energy companies offer monitoring apps that help you see how much energy your solar system produces and when it may require maintenance. Solar panels are designed to last 25 to 30 years, and your roof needs to last just as long. We recommend taking care of any roof repairs before installing solar panels.

Is financing solar panels worth it?

Financing solar panels is worth it if the loan payments are cheaper than your current utility bill. Leasing a system is cheaper upfront, but you won't get the federal tax credit. The average 5-kilowatt (kW) solar panel system is \$14,210 before considering any financial incentives.

Are solar panels worth it?

The federal solar investment tax credit (ITC) is the most significant financial incentive for most homeowners going solar. You might be able to combine the ITC with local tax breaks or rebates. Financing solar panels is worth it if the loan payments are cheaper than your current utility bill.
