

Saint Barthélemy homegrid powered by lithion

Who is HomeGrid powered by?

HomeGrid is powered by Lithion, a global battery manufacturer. Lithion is a brand that specializes in Smart Energy and manufactures best-in-class residential battery energy storage systems. HomeGrid has 3,029 followers on LinkedIn.

Why did lithion buy HomeGrid?

Lithion acquired HomeGrid after seeing the outstanding quality of the products and the value that it brought to communities during natural disasters and power outages. With Lithion's backing, HomeGrid has been able to scale throughout the United States, and now has launched into Europe and Central/South America.

Why should you use a HomeGrid battery system?

Using a HomeGrid battery system can help you peak shave and avoid inflated afternoon energy surge rates in areas with time-of-use rates. HomeGrid offers the best battery solutions for your home or business.

With a goal to offer a cost-saving, seamless transition from lead-acid to Lithium-Ion, Lithion Battery's Modular Design enables a "drop-in" solution for lead-acid replacement - is easy to implement - and eliminates re-tooling ...

Homegrid systems are perfect for off-grid living. We can connect an inverter and solar/wind/water power to keep electricity running no matter what. Want to eliminate demand charges and arbitrage time-of-use utility power rates? On its own, our battery systems can help offset high demand charges for homes and businesses.

With a goal to offer a cost-saving, seamless transition from lead-acid to Lithium-Ion, Lithion Battery's Modular Design enables a "drop-in" solution for lead-acid replacement - is easy to implement - and eliminates re-tooling efforts, significantly reducing purchasing, inventory, and servicing costs.
