

Saint Lucia's solar power system

Does St Lucia have a Solar Power Revolution?

Title: Solar Power Revolution: Advantages of Installing Solar PV in St. Lucia with Eco Carib St. Lucia, bathed in abundant sunlight and surrounded by the beauty of the Caribbean, is experiencing a transformative revolution in the realm of energy.

Where is St Lucia's first solar PV plant located?

On the 11th April 2018, the St. Lucia Electricity Services Limited (LUCELEC) - the sole electric utility company on the island - completed the commissioning of the island's first utility-scale solar PV plant. The plant is rated at 3 megawatt (MW) and is located in La Tourney, Vieux Fort, just north of the Hewanorra International Airport.

Does St Lucia offer incentives for solar PV installations?

The government of St. Lucia recognizes the importance of transitioning to renewable energy sources and often provides incentives to encourage solar PV installations. These incentives may include tax credits, rebates, or favorable financing options.

Does St Lucia have a power outage?

St. Lucia, like many tropical regions, occasionally experiences power outages due to storms or other unforeseen circumstances. Solar PV installations, equipped with energy storage solutions such as batteries, provide a reliable source of power even during grid interruptions.

Sol-Lucian is a Saint Lucia based Electric Solar Renewable Energy company that has developed a bold approach to reducing the cost of electric utility, through the provision of products and services that include installations of GRID-TIED and ...

SAINT LUCIA NATIONAL ENERGY TRANSITION STRATEGY AND INTEGRATED RESOURCE PLAN | 5 EXECUTIVE SUMMARY RESULTS Saint Lucia's energy transition opportunity provides a win-win situation in which the Government of Saint Lucia supports constituents through cheaper electricity, and LUCELEC continues to profit and provide reliable service.

The 3MW solar farm meets about 5% of St. Lucia's electricity demand and will reduce the volume of fuel purchased by LUCELEC by about 300 thousand gallons per year. LUCELEC uses approximately 20 million gallons of fuel per year. The solar farm builds on the work LUCELEC has been doing with grid-tied roof top solar PV systems since 2009.
