

In an effort to achieve the renewable energy targets for Samoa, EPC seeks to implement two additional Solar & BESS Renewable Energy Generation Facilities (REGF"s). To this end, EPC ...

6 ???&#0183; MANILA, PHILIPPINES (10 December 2024) -- The Asian Development Bank (ADB) has signed a transaction advisory services agreement with Samoa's Electric Power Corporation (EPC) to support the development of a solar photovoltaic and battery energy storage systems with installations planned for the country"s two largest islands, Upolu and Savai"i.

A new wind energy project will add another 25MW of renewables capacity to the island nation of Samoa - and 500kW of solar power has also recently been brought online. On Monday, a Power Purchase Agreement (PPA) between ...

About Solar for Samoa. MPower was awarded a contract to deliver a fully operational 5.0MW solar power station across two sites in Samoa. The first site at Faleolo International airport has a 3MWp solar PV ground mount system. The ...

South Pacific Island efforts to reduce dependence on costly and polluting diesel fuel continue, with the installation of 546kW of solar PV across the islands of Samoa - the independent state"s largest solar project yet.

Apia, Samoa - 18 November 2024 - A recent study has shed light on the promising demand for rooftop solar energy in households and businesses across Samoa. The study was conducted by the Market Development Facility (MDF), funded by the Australian Department of Foreign Affairs (DFAT) and co-funded by the New Zealand Ministry of Foreign [...]

In an effort to achieve the renewable energy targets for Samoa, EPC seeks to implement two additional Solar & BESS Renewable Energy Generation Facilities (REGF"s). To this end, EPC is now soliciting EOI"s from suitably qualified Independent Power Producers

4 ???&#0183; The project is expected to represent a capacity of up to 40 megawatts of solar and 40 megawatt-hours of batteries. According to the ADB, this will be a cornerstone of Samoa"s efforts to achieve 70 per cent renewable energy in its electricity mix by 2031.

About Solar for Samoa. MPower was awarded a contract to deliver a fully operational 5.0MW solar power station across two sites in Samoa. The first site at Faleolo International airport has a 3MWp solar PV ground mount system. The second site at Faleata Race Track has a 2MWp solar PV group mount system.

The project contributes to PIGGAREP Greenhouse Gas Abatement goals of CO2 emissions reductions of at least 30% by 2015 as compared to their Business as Usual scenario, and to the Government of Samoa's goals of increasing renewable energy's share of total energy production to 20% by 2030.

South Pacific Island efforts to reduce dependence on costly and polluting diesel fuel continue, with the installation of 546kW of solar PV across the islands of Samoa - the independent ...

4 ???&#0183; The project is expected to represent a capacity of up to 40 megawatts of solar and 40 megawatt-hours of batteries. According to the ADB, this will be a cornerstone of Samoa's efforts to achieve 70 per cent renewable energy in its ...

Currently, EPC operates 8 hydro plants (1 in Savaii and 7 in Upolu), solar farms at Apolima Island, Tuanaimoto, Vaitele, Tanugamanono and Salelologa Savaii, a wind farm at Vailoa Aleipata, and diesel power plants at Fiaga Upolu and Salelologa Savaii.

The Solar for Samoa PV project is situated over two locations; Faleata Racecourse (1.4MW AC) is located in the capital city of Apia, while Faeolo International Airport (2.1MW AC) is located approximately 40 kilometres west of Apia.

A new wind energy project will add another 25MW of renewables capacity to the island nation of Samoa - and 500kW of solar power has also recently been brought online. On Monday, a Power Purchase Agreement (PPA) between Samoa's Electric Power Corporation (EPC) and local company Pacific Renewable Energy Ltd. was signed.
