

Le projet SOLAR a pour objectif principal de contribuer à réduire la mortalité maternelle et infantile à travers la mise en place d'un programme d'immunisation efficace qui repose sur une chaîne de froid performante, la dotation des formations sanitaires des régions du nord en médicaments essentiels et en matériels techniques et le ...

By absorbing all the custom details, requirements, priorities, and challenges that 1,000-plus unique solar projects presented, Santé knows how to deliver cost-effective solutions that will result in the highest quality operating assets for ...

In 2021, EKOenergy granted 7,408 EUR to install PV solar panels in 4 community health centres in Bamako, Mali, to provide access to an Electronic Patient Medical Record system. This project was implemented by the French NGO Santé Sud and their local partners.

Santé Sud, a French NGO that works in the provision of healthcare, has enacted projects to provide sustainable energy to healthcare centres based in rural Mali. Through our Climate Fund, EKOenergy has financed Santé Sud's project. The contribution made by EKOenergy was used to finance solar PV installations, as

In 2020, EKOenergy granted 12000 EUR to a project by Santé Sud to provide solar energy to 13 rural community health centres in Mali. In 2021, we granted another 7408 EUR to power 4 more health centres in the capital area too.

La centrale solaire photovoltaïque de Tiakadougou-Dialokoro : une initiative majeure pour l'avenir énergétique du Mali. Découvrez les détails de ce projet ambitieux.

Solar-powered electronic medical record system in Mali In 2020, EKOenergy's Climate Fund granted EUR12,000 to the NGO Santé Sud for the installation of solar panels to improve working ...

Since mid-May, Mali has seen a major breakthrough: Assimi GOÏTA inaugurated construction work on three solar power plants. These costly projects will make a significant contribution to the country's energy sovereignty in the medium term.

In 2021, EKOenergy granted 7,408 EUR to install PV solar panels in 4 community health centres in Bamako, Mali, to provide access to an Electronic Patient Medical Record system. This project ...
