

Seamless installation of photovoltaic solar panels

Are integrated solar panels waterproof?

Unlike on-roof Solar Panels, which are installed on top of your roof tiles, integrated Solar Panels remove the roof tiles. This way the Solar panels can be embedded. Integrated Solar Panels are designed to behave as a roof tile would, they are 100% waterproof, yet also able to generate solar energy for your home!

Can a GSE in-roof system fit a solar panel?

GSE in-roof systems are one of the most commonly used in-roof systems, able to fit around 90% of the Solar PV Panels in the UK. They are designed to be installed in either portrait or landscape and can easily fit all roof types with pitches between 12°; - 50°; and also with wood or metal structures.

Can a residential solar system be installed on a roof?

Most homes have suitable roofs for solar panel installation. Factors such as roof orientation, angle, shading, and structural integrity will be assessed during a site evaluation by a solar professional to determine the feasibility of installation. How long does a residential solar system last?

Who is eligible for integrated solar panels?

To be eligible you must be a UK homeowner. Integrated Solar Panels, or In-roof Solar Panels, are designed to sit flush with your roof. Discover more about their Pros, Cons and Costs.

Are integrated solar panels right for You?

If you want to enjoy all the benefits of solar panels without compromising on your home's aesthetic appeal, then integrated solar panels might just be the best option for you. Once installed, you can enjoy free clean electricity from your solar system, as well as annual savings of up to £1,005.

How much does a 4KW Solar System cost?

For an average 2-3 bedroom household, a 4kW integrated solar panel system costs between £5,000 - £6,000 and can save you up to £660 a year, allowing you to break even on your investment in about 8 years. In-roof solar panels are aesthetically pleasing and seamlessly blend with the roofline.

Also known as in-roof and flat roof solar panels, these are a different option for homeowners looking to go solar. They are the bridge between on-roof panels and solar roof tiles. Unlike the most well-known panels that are ...
