

What began as an EPFL spin-off has blossomed into a global force for sustainable change, with offices in Switzerland, India, and the US. Our journey is driven by a simple yet powerful belief: ...

SmartHelio provides a software that helps solar utilities automatically predict and prevent downtime disruptions. We help solar utilities to generate extra \$200k per plant income on \$10k spent using our software, by preventing 700 faults per ...

Managing people's emotions and expectations in a startup. You need to convince super-smart people to work with you for less/no money and sell them your vision. Then, when the team is growing up, you need to keep hiring smart people and make sure they are intrinsically motivated to work for the vision.

Senegal, located at the westernmost point of the African continent, is the economic hub of West Africa with a population of over 15 million (and growing). The market checks all the boxes for us: multiple mobile network operators (Free Senegal, Orange and Expresso), strong mobile communications growth, a tower and power infrastructure gap and a ...

What began as an EPFL spin-off has blossomed into a global force for sustainable change, with offices in Switzerland, India, and the US. Our journey is driven by a simple yet powerful belief: that technology can and must serve as a bridge to a cleaner, more sustainable future.

(Agence Ecofin) - Dans le cadre de sa stratégie d'aménagement numérique du territoire national, l'Etat du Sénégal va bénéficier de l'expertise technique de la société Helios Towers. Elle investira dans l'amélioration de la couverture des télécommunications, indispensable à la participation de tous les Sénégalais à l'économie ...

Helios Towers announced that it has signed an agreement with Free Senegal, the second largest MNO in Senegal, to acquire 1,220 towers sites. HT will be the largest independent tower provider in Senegal, aligning to the company's 2025 strategic ambitions.

SmartHelio provides a software that helps solar utilities automatically predict and prevent downtime disruptions. We help solar utilities to generate extra \$200k per plant income on \$10k ...

SmartHelio's proprietary IoT sensor and intelligent software improve the performance and lifespan of solar panels. With the funds, SmartHelio plans to scale its product. The startup is a Venture Kick winner and Venture Leaders alum.
